

FertilityNorth

Fertility & Endometriosis Treatment Centre

 **GynaeNorth**

20 December 2023

Dear Fertility North patients,

We are excited to share with you some significant news regarding Fertility North. As you may have seen in the media today Fertility North has been approached by the Monash IVF Group with a proposed acquisition of a majority stake in the business. This proposal is currently subject to ACCC approval and is expected to complete late next year. This move creates an exciting opportunity which we believe will bring additional resources and expertise to Fertility North based on Monash IVF's history of innovation and scientific research.

We understand that announcements of this nature can raise questions and uncertainties, however we wish to take this opportunity to reassure all our valued patients that your continued treatment will not be affected by this. All the Fertility North staff and Clinicians will remain and continue to provide the same level of dedication, professionalism, and personalised service that you have come to expect from Fertility North. The values that have guided Fertility North will continue to be the foundation of our clinic.

Thank you for trusting us with your fertility journey, we are pleased about the opportunities that lie ahead and are confident that this proposal will lead to a bright future for Fertility North.

Kindest regards,

Dr Vince Chapple and Dr Jay Natalwala
